

Changes To CBI 2009

EXIST CBI No	EXIST CBI TITLE	CHANGE	NEW CBI No	NEW CBI TITLE	COMMENTS
12	Preliminaries and general	New title	12	General conditions	This is now consistent use of the word "general"
121	Preliminaries and general as a whole	New title	121	General conditions as a whole	
3151	Composite construction of insitu concrete & profiled metal sheeting	New title	3151	Composite construction of insitu concrete & permanent formwork	Allows more options
		New	316	Light weight concrete construction	Allows for new products
		New	3161	Insitu light weight concrete	
		New	3162	Precast light weight concrete	
		New	3163	Composite light weight concrete construction	
3811	Prefabricated timber elements, supply	Description changed, deleted references to engineered wood products			Makes allowance for the new section 3813
			3813	Engineered wood products	Allows for new technology developments
3814	Timber minor structural members and supports	Number and name unchanged, relocated in table correctly.			Was located incorrectly in previous CBI text
383	Timber floors, roofing and decking	Title and description change. Flooring, roofing and decking split up and moved to other areas in CBI	383	Timber work miscellaneous	Allows for sundry timber work not covered elsewhere
3831	Particleboard floors	Number changed to 5431			
3832	Timber strip floors	Number changed to 5432			
3833	Plywood floors and decking	Delete and split up to, 5433 Plywood floors, 4337 Plywood roofing and decking			

3834	Laminated timber flooring	Number changed to 5434			
41	Tanking, damp-proofing, wraps and underlays	New title	41	Tanking, damp-proofing and pre-cladding	Allows for a wider range of products that are installed before cladding
		New	417	Rigid pre-cladding	Rigid sheets installed before cladding
		New	4171	Rigid Air Barriers	
42	Cladding	New title	42	Wall and soffit cladding	All vertical, and downward facing, horizontal or sloping, self supporting cladding
		New	4238	Miscellaneous sheet cladding	Allows for new technology developments
		New	4285	Plaster render on insulating layer on solid substrate	Allows for systems with insulation fixed directly to solid substrates
43	Roofing	New title	43	Roof and deck cladding	All upward facing, horizontal or sloping, self supporting cladding, including substrates for membranes
		New	4316	Solar energy-collecting profiled sheet roofing	Allows for new technology developments
433	Flat sheet roofing fixed to framing	New title	433	Flat sheet roof and deck cladding fixed to framing	Aligns it with 43
4336	Solar heat-collecting flat panel roofing	New title	4336	Solar energy-collecting flat panel roofing	Allows for new technology developments
		New	4337	Plywood roofing & decking	Split out from the old 3833
438	Proprietary roofing systems	New title	438	Miscellaneous roofing and decking	Allows a wider coverage including plank decking
		New	4383	Timber decking	Plank, T&G, truck deck, and panel type timber decking, that is self supporting.
		New	4384	Decking	Plank and panel type non-timber decking that is self supporting.

4421	Mineral fibre reinforced asphalt or bitumen membrane roofing	Delete and combine into one section	4421	Bitumen based sheet roofing	Changing technology has reduced the differences between these two sections, it is appropriate and less confusing to combine them
4423	Modified bitumen sheet roofing				
		New	451	Timber windows, doors and rooflights	Number & heading missing from previous CBI
4511	Timber windows, doors and frames	New title	4511	Timber windows, doors and roof lights	Aligns with 451
456	Stainless steel doors, windows and roof lights	New title	456	Sundry metal doors, windows and roof lights	Allows for wider scope
		Number changed from 4571	4665	Bronze windows, doors and frames	
		Number changed from 4574	4666	Bronze roof and ceiling, windows and lights	
457	Bronze doors, windows and roof lights	New title	457	Sundry doors, windows and roof lights	Allows for wider scope
4571	Bronze windows, doors and frames	Number changed to 4665			
4574	Bronze roof and ceiling, windows and lights	Number changed to 4666			
48	Sealants, flashings and adhesives	New title	48	Enclosure sundries	Already a mixture of items, this allows more to be added
		New	485	Balustrades and barriers	Allows for exterior balustrades or barriers not covered elsewhere
		New	4851	Timber balustrades	Timber as the main structure used in conjunction with other materials
		New	4852	Metal balustrades	Metal as the main structure used in conjunction with other materials
		New	4855	Glass balustrades	Glass as the main structure used in conjunction with other materials
		New	488	Enclosure miscellaneous	Allows for new sections not covered elsewhere
		Number changed from 5551	4881	Bird Control	Belongs under enclosure

4944	Thin sheet aluminium items	Number changed	4934		Number corrected
497	Miscellaneous ferrous metals	Delete existing 497, replace			Existing is a repeat of 495
		Number changed from 498	497	Composite metals	
4971	Cast iron items	Delete			Repeat of 4951
4972	Wrought iron items	Delete			Repeat of 4952
		Number changed from 4981	4971	Composite metals	
498	Composite metals	New title	498	Miscellaneous metals	
4981	Composite metal items	Number changed	4971		
521	Demountable and panel partitions	New title	521	Partitions	More general to allow more types
5211	Proprietary and custom made demountable partitions	New title and description	5211	Metal frame partitions	More general to allow more types
		New	5212	Timber frame partitions	Allows for an interior non-loadbearing separate timber frame section.
		New	5216	Panelised partitions	Allows for none framed, panel based partitions
523	Interior doors	New title	523	Interior doors and windows	More accurate description
5231	Interior timber doors, windows, frames and doorsets	New title	5231	Interior doors, windows, frames and doorsets	Allows for any material or combination of materials
54	Access floors	New title	54	Floors	More general to allow for floors under interior
		New	543	Floors	This allows timber & non-timber self supporting flooring to be together in interior
		Number changed from 3831	5431	Particleboard floors	
		Number changed from 3832	5432	Timber strip floors	
		New, split out from 3833	5433	Plywood Floors	Plywood flooring split from roofing
	Laminated timber flooring	Title change, number changed from 3834	5434	Laminated timber floors	
		New	5438	Miscellaneous Floors	
549	Ancillary items; repairing and altering access floors	Slight title change	549	Ancillary items; repairing and altering floors	Aligns with the new 54

5497	Cleaning, repairing and renovating existing access floors and building services ducting	Slight title change	5497	Cleaning, repairing and renovating existing, floors, access floors and integral ducting	Aligns with the new 549
5498	Alteration work; demolishing and reconstructing access floors and building services ducting	Slight title change	5498	Alteration work; demolishing and reconstructing floors, access floors and integral ducting	Aligns with the new 549
5515	Sundry fixtures	Number changed	5518		
5521	Hardware	Description changed			Range reduced to allow for 5528
		New but including 5591	5528	Miscellaneous hardware	Allows for expanded hardware coverage
555	Miscellaneous fixtures	Number changed to 558			
5551	Bird control	Number changed to 4881			Belongs under enclosure
		Title change, number changed from 558	556	Metal work and composite fixtures	Allows separation of stairs and balustrades, and more fixture types
		New	5561	Metal and composite stairs and ladders	Split out from the old 5581
		New	5562	Metal and composite handrails, balustrades and barriers	Split out from the old 5581, allows for none stair balustrades
		New	5568	Miscellaneous metal and composite fixtures	Allows for expanded coverage
557	Timber stairs and covers	New title	557	Timber fixtures	This is a better description of existing sections, allows separation of stairs and balustrades, and expanded coverage
5571	Timber stairs, ladders, handrails, balustrades and barriers	Delete, and split up into new sections 5571 and 5574	5571	Timber stairs and ladders	
			5574	Timber handrails, balustrades and barriers	Allows for none stair balustrades
558	Metal and composite stairs	Title change, number changed to 556			
		New	558	Miscellaneous fixtures	
5581	Metal and composite stairs, ladders and balustrades	Delete, and split up into new sections 5561 and 5562			

5591	Hardware	Deleted and incorporated into 5528			
		New	6135	Concrete moisture protection	Allows for improved technology
63	Timber flooring, sheet, slab, and panel surfacing	New title	63	Sheet, slab, panel and wood surfacing	Reflects contents more accurately
		New	6417	Composite resilient surfacing	Allows for more complex products
		New	6418	Miscellaneous resilient surfacing	Allows for expanded coverage
67	Painting and paperhanging	New title	67	Painting, decoration and coating	
		New	670	Painting, decoration and coating	
		New	6700	Painting general	Allows for one general section to combine with split interior and exterior painting
671	Painting and clear finishing	New title	671	Painting exterior	
6711	Painting and clear finishing	Delete, and split up into new sections, 6700, 6711 to 6719 and 6721 to 6729	6711	Painting exterior	Split into interior and exterior
6712	Liquid floor treatment	Title change, number changed to 6747			
		New	6715	Decorative coatings exterior	
		New	6719	Painting existing exterior surfaces	Partly taken from 679
672	Specialist decorative coatings	Title change, number changed to 673			
		New	672	Painting interior	
6721	Specialist decorative coatings...	Number changed to 6731			
		New	6721	Painting interior	
6722	Electrostatic applied coatings.....	Title change, number changed to 6746			
		New	6725	Decorative coatings interior	
		New	6729	Painting existing interior surfaces	Partly taken from 679
673	Specialist protective coating	Title change, number changed to 674			
		Title change, number changed from 672	673	Specialist coating	

6731	Protective coatings - steelwork	Title and description change, number changed to 6745			
		Number changed from 6721	6731	Specialist decorative coatings of all types....	
6732	Fire-rated coatings.....	Title change, number changed to 6742			
		New	6734	Timber stains & transparent finishes	
		New	6735	Anti graffiti coatings	
		New	674	Protective coatings to floors	
		New	6741	Waterproofing coatings	
		Title and description change, number changed from 6732	6742	Fire-rated coatings - Metal	
		New	6743	Fire-rated coatings – Timber	
		New	6744	Protective coatings	
		New, partly from 6731	6745	Protective coatings - steel and other metals	
		Title change, number changed from 6722	6746	Powder coating	
		Title change, number changed from 6712	6747	Protective coatings to floors	
		New	6748	Miscellaneous protective coatings	
675	Paperhanging	New title	675	Wall coverings	
6751	Wallpaper finish to walls and soffits	New title	6751	Wallpaper finishes	
6752	Fabric finish to walls and soffits	New title	6752	Fabric finishes	
6753	Flexible thin sheets to walls and soffits	New title	6753	Flexible thin sheets finishes	
		New	6758	Wallcoverings miscellaneous	
		New	678	Miscellaneous painting, decoration and coating	
		New	6781	Hot dip galvanizing	This differentiates between hot dip galvanizing and zinc sprays

679	Ancillary items; repairing and altering surface finishes	New title	679	Ancillary items; repairing and altering painting, decoration and coatings	
6792	Cleaning, repairing and renovating existing painting and paperhanging	New title and description	6792	Cleaning, repairing and renovating existing painting, decoration and coating	
6793	Alteration work; removing and reconstructing painting and paperhanging	New title and description	6793	Alteration work; removing and reconstructing painting, decoration and coating	
		New	68	Finishes sundries	
		New	681	Waterproofing and acoustic underlays	
		New	6811	Waterproofing and acoustic underlay systems	Combined systems
		New	6812	Waterproofing underlays	
		New	6813	Acoustic underlays	
7631	Central refrigeration plant	Change number	7571		Wrong number originally
7632	Cooling distribution systems - liquid	Change number	7572		Wrong number originally
7633	Cooling distribution systems - refrigerant	Change number	7573		Wrong number originally
		New	760	Ventilation and air-conditioning General	
770	Electrical general	New title	770	Electrical	Reflects other changes
7700	Electrical general	Number changed to 7705			
		New	7701	Electrical Basic	Complete combined electrical spec for small simple projects
		New	7702	Electrical Standard	Complete combined electrical spec for medium complex projects
		Number changed from 7700	7705	Electrical general	

7811	Cable communication	Change title and description	7811	Communication cabling	New section for commercial applications only
		New	7817	Communication cabling residential	New section for residential applications only
		New	786	Control Systems	Allows for multi system control systems
7852	Central Control systems	Change number	7861		Groups under controls
7853	Building Automation & Building management systems	Change number	7862		Groups under controls
		New	7863	Control & automation systems residential	Allows for new technology
		New	8328	Miscellaneous site works
