12	General conditions	new title	12	General requirements	To reduce confusion with Contract Conditions
121	General conditions as a whole	new title	121	General requirements as a whole	
1245	Temporary construction	Description changed			Items covered in new section 1247 deleted
		new	1247	Traffic control	Traffic management is becoming more of a requirement for projects
		new	1256	Temporary works and services, interiors	Temporary work for interior alterations is quite different to new structures
		new	2133	Temporary support of existing structures	Allows for temporary lifting and support of house type structures
		new	215	Relocation	The relocation of existing structures to new locations
		new	2151	Relocation of houses	The relocation of existing house type structures to new locations
		new	3831	Interior timber work	Allows for small scale timber framing and other work for interior fitouts
41	Tanking, damp-proofing and precladding	new title	41	Tanking and precladding	Simplifying the title, damp proofing is still included
42	Wall and soffit cladding	new title	42	Wall cladding	Simplifying the title, soffit is still included
43	Roof and deck cladding	new title	43	Roofing and decking	Simplifying the title
4391	Rainwater spouting and downpipes	Title change, number changed to 7411			Rationalise rainwater disposal systems into broader CBI Liquid disposal above and below ground
4392	Rainwater plumbing	Title change, number changed to 7412			
44	Membrane roofing and waterproofing	new title	44	Membrane roofing	Simplifying the title, waterproofing is still included
		Title change, number changed from 6292	4495	Membrane accessories	Corrected placing in CBI
45	Windows, doors and roof lights	new title	45	Windows and doors	Simplifying the title, roof lights are still included
4581	Fire rated window, door and frame assemblies	new title and description	4581	Timber fire rated window, door and frame assemblies	Allows a specific section for timber products
		new	4582	Steel fire rated window, door and frame assemblies	Allows a specific section for steel products
4611	General glazing	new title	4611	Glazing	Simplifies title
4612	Security glazing	Amalgamated into 4614			
		new	4612	Interior glazing	Allows for a specific section on glazing and decorative glass use not related to weatherproofing
		new and includes items from original 4612	4614	Special glazing	Allows for a range of glazing situations with special high performance requirements

51	Linings	new title	51	Wall and ceiling linings	Making title self explanatory
5122	Plywood linings	Minor description change			Decking removed for consistency, is already in 4337
5123	Manufactured timber board linings	Minor description change			Decking removed for consistency, is already covered in 433 and 438
5124	Solid timber board linings	Minor description change			Decking removed for consistency, is already in 4383
		new	5173	Radiation protection lining	Expands the range of Special performance lings
		new	5174	Impact resisting lining	Expands the range of Special performance lings
53	Ceilings	new title	53	Ceiling systems	Allows greater differentiation between simple ceiling linings 51 and 53 ceiling systems including suspension systems
5311	Suspended ceilings on proprietary suspension systems	Title and description change, sheet material systems moved to 5313	5311	Suspended tile ceilings on proprietary suspension systems	Allows for separate sections for lay in tile ceilings and sheet/flush ceilings
		new	5313	Suspended sheet ceilings on proprietary suspension systems	Allows for separation of lay in tile ceilings and sheet/flush ceilings
		new	5722	Workstations	Allows for a more comprehensive coverage of office workstation systems
61	Trowelled, liquid applied and sprayed coatings	new title	61	Applied coatings	Simplifying the title
6291	Waterproofing products and systems	deleted			Already covered under 681 Waterproofing and acoustic underlays
6292	Accessories	Number changed to 4495			Moved to more appropriate number
63	Sheet, slab, panel and wood surfacing	new title	63	Overlay flooring and wall panelling	Simplifying the title
6745	Protective coatings to steel and other metals	Minor description change			Standard spray systems added to differentiate from special sprays in 6782
		new	6782	Metal sprayed corrosion protection	Allows for spraying anodic metals
71	Liquid	new title	71	Liquid supply	More accurate description
		new	7126	Water heaters	Allows for more comprehensive coverage of complex water heating systems
714	Sanitary plumbing and non-potable water systems	new title	714	Non-potable water systems	Allows sanitary plumbing to be moved to correct number
7141	Sanitary plumbing	Title changed, number changed to 7421			Moved to more appropriate number
721	Natural gas systems	new title	721	Gas systems	Simplifying the title
7211	Piped systems for natural gas	new title and description changes	7211	Piped systems for gas	Piped LPG added to description
7212	Gas supply cylinders systems for CNG	new title and description changes	7212	Gas supply cylinder systems	Worded to suit the more common LPG systems
